

Commencing Next Wednesday Irma Stores Will Close at 12 Noon, Half Holiday

NEWS AND VIEWS FROM AVONGLEN

Mr. Nottingham and family have taken up residence on the S.E. of 26 in Avonglen district, being Hudson Bay immigrants. Two children, Eric and Cynthia are starting school at Avonglen.

Chas. Anderson who is attending high school in Edmonton and Helen Ballentine who is also in Edmonton attending Normal, spent the Easter holidays at their homes in Paschenedale and Avonglen districts. Miss Helen did her practice teaching at Crescent Hill under the supervision of Miss Alma Miles, the week previous to Easter.

The many friends of Mr. and Mrs. M. Hamilton in Avonglen and Paschenedale will be pleased to know that Mr. and Mrs. Hamilton of Edmonton are rejoicing over the arrival of a baby daughter. Both Mr. and Mrs. Hamilton are well known here. Mr. Hamilton (nee Miss McTavish) had charge of Avonglen school its first term and of Paschenedale later. Mr. Hamilton is a son of Mrs. McCreadie and resided in Avonglen district several years.

Avondale U.F.W.A. held their meeting on April 24th at the home of Mrs. G. Coulman with a large attendance of members and visitors. After the business of the meeting a short program was put on consisting of violin solos by Mrs. Prothero, piano solo by Miss McDonald, duet by Mrs. E. Prior and Mrs. G. Coulman, violin solo by little Audrey Prothero. A paper on Easter very appropriate and touching was read by Mrs. J. Thomson. A debate "Resolved that more national benefit to the world is derived from the Agricultural man than the Professional man." Affirmative, Mrs. Allen and Mrs. Marshall; Negative, Mrs. Ballentine and Mrs. S. Thomson. Messdames Cole, Moon and Prior, Sr. gave their services as judges, their decision being in favor of the affirmative. All the ladies defended their side very well and especially did the negative relate some accomplishments of the professional man whose value cannot be estimated in dollars and cents. As this is the local first attempt at debating and a rather difficult question, the ladies were surprised to receive many congratulations on the way both sides were supported. Debating on well chosen subjects affords a great deal of brushing up on education as well as pleasure and now that the start has been made we hope to continue.

A committee including Messdames, Whiteley, Marshall, M. Thomson and W. Johnson were chosen to draft a program from July to December inclusive.

Welcome visitors were: Mrs. Moon, Mrs. Cole, Mrs. Prior, Mrs. Guy and children, Mrs. Prothero and Audrey, Miss McDonald, Mrs. Saville and Miss Lorna, Mrs. McLean and Misses Jean and Betty.

The next meeting will be with Mrs. Riddle on May 2nd when a discussion will take place, subject, "What further benefits have I derived from another year of meetings?"

Visitors are always welcome at all meetings. After partaking of a most delicious lunch served by the hostesses the meeting closed with singing "Home, Sweet Home," and a vote of thanks to Mrs. Coulman as a capable and charming hostess.

Miss Edna Arnold has been absent from school for a few days because of illness.

LOCAL NEWS

United Church was filled to capacity Sunday night when the Irma L.O.O.F. attended divine service. Rev. Mr. Geeson preached a very appropriate sermon.

Wednesday morning while S. Deniger was driving along 3rd avenue his wagon tipped on the grade giving him a bad fall. Dr. Greenberg gave him first aid and sent him to Wainwright hospital for an X-ray.

Wednesday evening R. T. Meakin's two year old baby met with a painful accident when it got its right hand in the cogs of the pump jack. Dr. Greenberg had to amputate the end of the second finger and dress the rest of the hand.

Mrs. E. Simmons is visiting friends in Edmonton.

IRMA L.O.O.F. 2066 HOLDS MEETING

At the regular meeting held April 24th, W. M. M. D. Askin in the chair, a good attendance of members assembled to meet a number of distinguished visitors, among whom were: R. W. Bro. A. E. Williams of Vermilion, Provincial Grand Master; R. W. Bro. T. A. Taylor of Calgary, the province as Calgary Dave; M. W. Bro. J. W. Hegerty of Mannville, Grand Lecturer; W. County Master Bro. F. Rodgewell of Wainwright; C. S. Bro. S. Merrick of Wainwright; C. C. Bro. Rev. A. M. Trendell of Wainwright; W. M. J. E. Wilkins of Wainwright; P. W. M. H. C. Montgomerie of Gilt Edge; Bro. L. E. Rettie of Vermilion.

The meeting was a real live one. After the regular business was transacted, speeches from many of the visitors were listened to with interest and great pleasure. The Provincial Grand Master and the Field Secretary were in great form and made rousing speeches, touching on Separate School Bilingualism, Protestant Orphanages, and the coming elections. The Countess Master gave some wholesome advice re organization. A hearty vote of thanks was accorded the visitors and the Lodge closed in due form. A lunch was then served and a social time spent which all enjoyed.

WHY AND WHEN SWEET CLOVER

Former Field Commissioner Gives His Views on Subject.

For various reasons sweet clover is one of the finest pasture crops to grow, said a former field crops commissioner, when asked the other day why it had become so much inquired about.

The reduced yield of wheat on old land due to the depletion of nitrogen was one reason for seeking sweet clover. Nothing was more efficient as a nitrogen builder in the way of a short rotation crop. It was also valuable as a replenisier of fibre in the soil. It tended to stop soil drifting which is becoming bothersome in some areas.

Sweet clover also loosens up certain types of heavy soils and tends to aeration of a desirable kind.

As a pasture there is none better and it is quite safe for livestock. Of course discretion must be used in starting its use with cattle.

For hay it provides a tremendous tonnage per acre, there is none to equal it.

Sown with grain, sweet clover adds greatly to the value of the straw—in fact furthers the utilization of the straw stack. Having fine feeding value, the mixture with the straw adds value effectively without trouble.

He recommends 12 lbs to the acre on black soils and 8 lbs. in the dry soils to the south, broadcast.

Mr. Stephen, now with the Chipman Chemical company with offices at Edmonton, is in charge of educational and research work for the company and would welcome any correspondence on field crop problems.

ALBERT SCHOOL REPORT FOR MONTH OF APRIL

Grade IX—Alice Jones 74, Charles De Tro 69 1-2, Gordon Ramsay 60, Grade VII—Albert Jones 66, Erling Larson 54.

Grade VI—Edith McRoberts 83, Edith Jones 76, John Bars 75, Harley Bars 67, Ivan Hardy 64, Margaret Ramsay 58, Sandy Ambler 58.

Grade V—Kathleen Bars 68, Vernon Bjork 62.

Grade IV—Edwin Sanderson 82, Wilma Currie 80, Peter Sokulski 70.

Grade III—Evelyn McRoberts 81, Edna Jones 71, Edgar Jones 64.

Grade II—Frances Bars 83, Sophie Sokulski 76.

Grade I Sr.—Dorothy Currie 87, Mina Currie 79.

Grade I Jr.—Myrtle Ramsay 88, Cyril Jones 75.

Bessie H. Scott, Teacher.

Monday the Irma district enjoyed one of the heaviest rains we have had for many months. Rain started descending about 7 a.m. and continued almost without a stop till late in the afternoon. Seeding was suspended till Wednesday afternoon, and in some cases till Friday.

CHURCH NOTICES AND ACTIVITIES

IRMA UNITED CHURCH

Rev. John R. Geeson, M.A., B.D., Pastor

SUNDAY

Sunday School at 11 a.m.
Public Worship at 8 p.m.

Alternate Sundays

Albert School at 11 a.m.
Strawberry Plains at 11 a.m.

Alma Mater at 3 p.m.
Roseberry at 3 p.m.

Trail Rangers on Monday 7:30 p.m.
C. G. I. T. Tuesday 7:30 p.m.

Mid-week Service Wednesday 8 p.m.
Ladies Aid, 2nd and 4th Thursdays.

W. M. S., every third Thursday.
Services next Sunday at Albert and Alma Mater. The topic of the sermon, "Conscience."

There was a splendid congregation last Sunday on the occasion of the Oddfellows' Anniversary. A very large number of the members of the local lodges of the I.O.O.F. and the Rebekahs paraded to the church and occupied the seats reserved for them. The service was of special nature, the choir singing an anthem entitled "Be a Loving Helper" and the sermon was on the theme of Brotherhood.

Preparations are being made to recognize Mother's Day both in Sunday school and Evening Service. The girls of the C.G.I.T. will have control of the service in Irma. A Mothers' Day program, will be given at Roseberry.

ANGELICAN CHURCH SERVICE

Will be held in Irma United Church on Sunday, May 4th at 3 p.m. Everybody welcome.

The next W. A. meeting will be held on Tuesday, May 13th at the home of Mrs. Carter at 2:30 p.m. Everybody welcome.

The W. A. wish to thank all the ladies who helped to make their sale of home cooking a success.

C. G. I. T. NOTES

On Saturday, April 26th the Joy-spreaders held their Physical meeting in form of a hike to Swails lake. Twenty-eight boys and girls met at the church at four o'clock, all laden with parcels of various sizes and contents.

When our destination was reached the group went on a very exciting paper chase which lasted over a half an hour. While this was being done the remaining people stayed and got the supper ready and the bonfire going and also the winners ready to be roasted. Everyone ate very heartily and afterwards other games were played until it became time to return home. We closed a very enjoyable meeting by marching back to town over plowed fields, everyone in high spirits.

HILL PARK SCHOOL

EASTER REPORT

Grade I. A—Margaret Bonna 85.33.

Grade I. B—Ellen Green 96, Carl Johnson 96.66, Camilla Rudd 96, Tommy Oakes 83, Thorndis Lundie 81.33, Gina Bonna, not graded.

Grade II—Carl Berg 87.8, Leonard Berg 77.6, Mary Bonna 38.2.

Grade III—Pearl Mayne 91.83, Eric Oakes 89.5, Rachel Lundie 63.73.

Grade IV—Clara Bonna 82.5, Douglas Mallen 82.16, Gudrun Lundie 72.

Grade V—Willie Green 71.83.

Grade VII—Ruby Mayne 66.57.

Grade VIII—Ethel Green 85.23, Margaret Oakes 78.14, Vera Jewel 69.13.

Myrtle Paull, Teacher.

RE STOCK INSPECTION ACT

People who are moving cattle in the district by truck or other means over the twenty mile limit without a permit as required by the Act, are subject to prosecution.

Instructions have been received to advise people in the district, who are moving cattle, that it will be absolutely necessary to have the stock inspected and to get a permit before moving them.

By enforcement of the said Act it will no doubt curtail the number of cattle reported missing each year.

NOTICE

The Irma Rebekah Lodge propose holding a sale of home cooking and serving lunch afternoon and night on Saturday, May 3rd.

WEEKLY REVIEW PROV. MARKETS

BEEF—Choice heavy steers \$10.55 @ \$10.75, and choice light from \$10 @ \$10.50, with the good \$9.75 @ \$10; medium \$9 @ \$9.50, and the common \$8 @ \$8.50.

ARBOR DAY SET

MONDAY MAY 5th

Edmonton; April 19th—Arbor day has been fixed for Monday, May 5th, according to announcement made on Thursday by Premier J. E. Brownlee.

The day, usually the first Monday in May, is set by order of the lieutenant governor in council.

While not a statutory holiday, it is usually observed as a legal holiday, with government offices, courts and some other offices closed.

ADENOIDS

Behind the nose and above the throat there is normally, in every child, adenoid tissue. If this tissue becomes enlarged, we say that the child has adenoids. The adenoid tissue is similar, in many ways, to the tonsils. Adenoids are a disease of childhood. Enlargement, or disease, or a combination of both, is responsible for certain abnormal conditions.

Among these abnormal conditions, we find obstruction to nasal breathing. Depending upon the extent of the obstruction, the child becomes more or less a mouth breather, and, if this condition persists, the jaw begins to drop, the cheeks become sunken, and the result is the typical adenoid "fishy" face, with its dull expression.

When there is obstruction to nasal breathing, such as results from adenoids, there occurs a deformity of the jaws, and this, in turn, brings about irregular teeth. The jaws of the child are soft and in process of development. It does not require much nasal obstruction to alter them and to cause more or less serious permanent damage.

Infection, when present in the adenoid tissue, is more than likely to spread into the ears and set up inflammation there which may result in loss of hearing, in varying degrees. The reason for this is because of the fact that there is a small tube—the Eustachian tube—which connects the ear with the back of the nose and throat. It is, unfortunately, a simple matter for infection to spread down this tube; hence the frequency of ear disease as a result of adenoids.

The child with adenoids does not get a fair chance for mental development. He has the same feeling as he would have if he were living in a stuffy, unventilated room, and we know, from common experience, that this suffices to make anyone dull and lazy.

Adenoids, therefore, obstruct natural breathing, tend to deform the jaw, are responsible for ear disease and deafness, and handicap the child in his mental development. There is only one thing to do with adenoids, and that is to remove them.

Questions concerning health, addressed to the Canadian Medical Association, 184 College Street, Toronto will be answered personally by letter.

FOR RENT—Four roomed house for rent, west of the United Church.—H. W. Love, Irma.

FOR SALE—A few hives of Italian bees. Will trade for seed oats or barley.—H. W. Love, Irma.

BANKER DIES SUDDENLY

H. B. MACKENZIE

general manager Bank of Montreal dropped dead Friday in Montreal.

Montreal, April 25th—Hugh Bair Mackenzie, general manager of the Bank of Montreal, died today.

He was taken suddenly ill while preparing for the usual Friday morning board meeting of the Bank of Montreal at its headquarters at St. James St. He was 62 years of age and apparently in robust health.

Mr. Mackenzie is survived by his wife and three children. Coroner Lorenzo Prince found that death was due to cerebral hemorrhage.

SPRING CLEANING

It is not too early to send in household articles such as curtains, drapes, rugs, table covers, dresser scarves, bed spreads, eiderdowns, etc. for dry cleaning.

It is also well to consider the dry cleaning of articles which are to be put away until next winter.

It is a fact that moths will not readily attack articles that have been scientifically dry cleaned.

'Fresh from the gardens'

Cause For National Gratification

Profound satisfaction will be felt by the people of Western Canada, in common with the rest of the world, in the successful outcome of the Five Power naval conference in London, England. That satisfaction is all the greater, and the feeling of relief more pronounced, because of the many predictions freely made during the progress of the conference that its results would be nil, and quite abortive in the realization of the hopes in which it was conceived.

Because there were many conflicting viewpoints to be reconciled, many difficulties to be overcome, and the conference run on month after month, the pessimists told an anxiously awaiting world that nothing would be accomplished because nothing could be; that the nations were still so suspicious of each other that they were afraid to disarm in even the slightest degree; that the old game was still being played with each nation trying to get some advantage at the expense of others.

But with the signing of an agreement by the three greatest naval powers, and acceptance of a portion of the agreement by the next two naval powers, the dire prophecies of the pessimists have been proven foundationless. Instead, the splendid optimism, the unflinching patience and courage of Ramsey MacDonald have triumphed, and a great forward step taken along the road to permanent world peace.

After a world war lasting more than four years, why should people have become discouraged and foreseen failure because a period of three months was required in discussion of the many knotty problems confronting the naval conference before a solution was found?

The British Commonwealth of Nations, the United States of America, and the Empire of Japan have found themselves whereby they undertake to reduce their naval armament and expenditures and voluntarily impose restrictions on themselves. The number, size and armament of ships of war is limited. And who, a few short years ago would have imagined it possible, all five powers agree that information will be given to each by all the others "of vessels it is building" in replacement of obsolete, abandoned and destroyed ships. This is not preparation for war, but for the maintenance of peace.

But the great achievement of the conference is not to be found so much in the actual reductions decided upon, or the limitations of actions voluntarily assumed, as it is in the established fact that the policy of friendly consultation between nations has been given an impetus which will undoubtedly grow. This more than anything else must fill the world with hope for the future.

The conference has also established beyond all possibility of dispute that no matter how far the leaders of a nation may be prepared to go in the matter of disarmament, they can only proceed as far as public opinion at home will support them in going. The belief is general that the conference would have gone to even greater lengths in disarmament had the various representatives there felt assured of support at home, and that their very willingness to make concessions would not be used to overthrow the whole project when referred for final ratification by their national assemblies.

The great lesson of the conference for all peace-loving people is, therefore, the vital necessity of an awakened and informed public opinion in every land on the awful subject of war and preparation for war, rather than preparation for peace. Once again has it been demonstrated by this naval conference that no Government can move very far in advance of public opinion, and that concessions would not be used to overthrow the whole project when referred for final ratification by their national assemblies.

It is the rank and file, the great mass of the people who must become peace-minded. It is the masses who must be informed and taught to shed their suspicions and animosities. The more ardent advocates of peace the peoples of all nations become, the more quickly will their recognized leaders and responsible statesmen write those wishes into solemn agreements and binding treaties.

Canadians, perhaps more than any other people in the world, have cause for thankfulness and rejoicing in the reaching of a naval understanding between the British Commonwealth, the United States and Japan. We are part and parcel of the British Commonwealth, while our nearest neighbors are the United States and Japan. With the former we have much in common, while with the latter by reason of our geographical position we must have ever increasing intercourse. Furthermore, any misunderstanding between the United States and Japan could hardly fail to react with injury to us. That all are in accord is cause for deep gratification in Canada.

Should Finish Studies

In Canadian University

British Students Who Settle Here Would Find It Helpful

British students who wish to settle in Canada should complete their studies in Canadian universities. This is the conclusion arrived at by Dr. Cyril Norwood, headmaster of Harrow, and chief of the party of headmasters of British public schools who are now touring Canada.

Dr. Norwood has based his conclusions on a study of the Canadian universities the party visited in Quebec and the Maritimes. He hoped the future would see more Canadian students at Oxford, Cambridge and London, but felt the most important requisite for success in Canada was training in a Canadian university. There was a movement on foot, he said, to make the University of London the research centre of the empire.

Iceland's foreign trade is increasing.

Headache

Africa Has Aerial Studio

Plane Was Especially Built For Mapping Country

Built especially for photographing of an area 65,000 square miles in Northern Rhodesia, an airplane is soon to be put into commission. The machine is literally an aerial photographic studio. It can be flown at a height of 20,000 feet and remain at this altitude for seven and one-half hours, while the pilot and photographer map the country below. As most of the flights will be over a wild country the plane has two engines so that if one fails the other will carry the machine to safety.

German scientists have succeeded in obtaining electric current from storm clouds in a Swiss mountain and controlling the sparks produced.

Discovery Of Danish Farmers

Sale Of Milk By The Foot Is a Possibility

Milk will shortly be on sale by the foot, following important experiments at a Danish farm. It has been found that when the natural water is withdrawn from cows' milk the remaining pulpy substance can be rolled into sheets similar in appearance to paper.

Special machines have been made to carry out this rolling process on sanitary lines, and the milk becomes so highly concentrated that it is a food in itself.

When required in liquid form it is simply dissolved in boiling water and its strength gauged by the amount of water added.

OWES HER HEALTH TO PINK PILLS

This Weak Anaemic Woman Now Rejoices In Health and Strength

It is a scientific fact that nearly all the ill that afflict women are due to poor, thin blood. This anemia is the one cause of low spirits and languishing, the poor appetite, breathlessness and aching backs that make life a burden for so many women. But for these pills women could banish all these miseries by taking Dr. Williams' Pink Pills, for it is a known fact that these pills create an abundance of new rich blood — their wonderful reputation is based on that. Proof of these statements is given by Mrs. L. Deschamps, La Tuque, Que., who says: "Before I began using Dr. Williams' Pink Pills I was in a badly run down condition. I appeared to be almost bloodless, had frequent headaches, and the least exertion would leave me breathless and worn out. My husband advised me to try Dr. Williams' Pink Pills, and I bought six boxes. Almost from the first I noticed an improvement in my condition, and as I continued taking the pills my blood became better and I steadily grew stronger. Till today I am enjoying the best of health. I am now able to do all my household work without feeling the least fatigue; my appetite is better and I sleep more soundly at night. All this I owe to Dr. Williams' Pink Pills, and I unhesitatingly recommend them to all who are run-down in health." You can get Dr. Williams' Pink Pills at all drug stores or they will be sent by mail at 50 cents a box. Write to Dr. Williams' Medicine Co., Brockville, Ont.

Canada Has Exclusive Method

Quality Of Canned Goods Must Be Marked On Label

Canada is the only country in the world so far to require the quality of canned goods to be clearly marked on the label so that the housewife can buy with the assurance that she is getting what she wants. Under the provisions of the Meat and Canned Foods Act, administered by the Fruit Branch of the Dominion Department of Agriculture, there are four quality grades: "Fancy," "Choice," "Standard," and "Second." "Always buy by the quality mark" is a slogan can now be applied to home buying with a real value.

Persian Balm is unrivaled for promoting feminine loveliness. Tones and rejuvenates the skin. Makes it exquisitely soft-textured. Makes hands flawlessly white. Especially recommended to soothe and relieve roughness or chafing caused by weather conditions. Indispensable to every dainty woman. Cool and refreshing. Delicately fragrant. Mortar in results. Never leaves a vestige of stickiness. Persian Balm is the one toilet requisite for the woman who cares for charm and elegance.

Canada's Forest Area

The total forest area of Canada is estimated to be 1,151,454 square miles. Of this area, 805,880 square miles are productive and accessible; a little over one third of this area bears timber of merchantable size; the remainder carries young growth not yet fit for use.

A railroad in Japan provides thick sleeping cars for its poorer patrons.

Do Your Ears Buzz With Loud Noises?

This is an infallible sign of Catarrh, and if not checked may result in partial deafness. The simplest remedy is CATARRHOZONE — inhale its soothing vapor a few times daily, and it prevents Catarrh from spreading. Head noises, buzzing and ringing in the ears are soon corrected by CATARRHOZONE. Nasty nose-discharges are stopped. Sore, inflamed crusts are healed. Sickening mucus which drops back from the nose to the stomach is done away with. Headaches depart. The breath is purified. You will be free from Catarrh if you use CATARRHOZONE. Two months' treatment \$1.00; small size, 50c. At all dealers.

Boosting For Canada

Many Cities In Britain Have Held "Canada Week"

There has not been much said in Canadian newspapers about the city of Bristol's "Canada Week," and the event should have been taken more notice of than it was.

Bristol is a city of 400,000 people. It has just had a "Canada Week," which consisted of a campaign for the buying of goods made in Canada. Pages of newspaper advertising space, posters, window displays of Canadian merchandise, and other forms of publicity were given to our products, and the cumulative results have had "Canada Weeks," and Canada must have derived a large amount of permanent benefit from them.

Glasgow, with a population of over a million, and several other big cities have held "Canada Weeks," and Canada must have derived a large amount of permanent benefit from them.

Such gestures of good-will deserve the practical approval of Canadians. There is a great deal more boosting of Dominion products in Great Britain than there is of English products over here. The Empire Marketing Board spends about \$5,000,000 on the promotion of the sale of Empire goods in the British Isles. We sell a vast quantity of merchandise over there, and then spend most of our money in buying United States goods.

Canada will wait till the moon turns into cheese before a "Canada Week" is staged in one of the big cities over the border.

Miller's Worm Powders do not need the after-help of castor oil or any purgative to complete their thoroughness, because they are thorough in themselves. One dose of them, and they will be found palatable by all children, and the worm trouble will be completely eradicated, and unentenable to the parasites. And not only this, but the powders will be found to be of great beneficial influences in the digestive organs.

Has No Known Parallel

Two British Families Have Produced Outstanding Men For Generations

The death of the Earl of Balfour recalls the fact that, for centuries two British families have produced big men for generation after generation — the Cecils and the Churchills. There is no known parallel for this in any other land or in any other age.

The Pitts, father and son, were premiers of Great Britain, but it ended there, and of practically all other men of note in the old land the descendants have not attained any other honor save that of carrying a big name.

If it be true that the mother transmits mentality, then the Cecils and Churchills must have an uncanny habit of selecting unusual wives.

Established a Record

Thirty-two years on a water wagon is a record of civic service which will take some beating, and when there is added to that a service of over 29 years, as driver of the town's fire team, during which he missed only one fire, and the record of John Tozer of Port Hope, Ont., seems to be complete.

Chicken Cannery

The construction of a \$25,000 chicken cannery to be operated in connection with the B.C. Egg Pool and with other poultry raising concerns of the Fraser Valley, is planned for New Westminster. It will be a private venture.

One of the most thrilling drives in the mountains of Western Canada is along the new motor road to the top of Mount Revelstoke, in Mount Revelstoke National Park, a reservation of 200 square miles in British Columbia.

Millions Dedicated To Humanity's Service

Huge Sum Set Aside By Mayo Bros. For Medical Education and Research

The millions of dollars that Doctors William and Charles Mayo have made through their world-famous clinic at Rochester, Minn., will not go to their families when the two great surgeons die.

Instead this money — the "holy money," as the brothers call it, now totalling in the neighborhood of \$13,000,000 — will be dedicated to humanity's service through the Mayo Foundation for Medical Education and Research, affiliated with the University of Minnesota.

Meanwhile the two brothers have put themselves on "salaries" which do not amount annually to nearly half of their incomes. All of their incomes above these salaries goes to the foundation, to train surgeons for the future.

Dr. William Mayo was asked on what basis he and his brother have fixed their charges.

"That, too, was something my brother and I discussed long," he said. "When money began to come in and pile up so fast it frightened us, we had to meet that problem. The thought of reducing fees generally had to be dismissed. We could not paperize our own profession. There are thousands of physicians and surgeons who need the income from what are becoming accepted as standard fees.

"But we could do something that we did. We scaled the fee in accordance with the patient's means. And we gave the same treatment to the man without a cent that we give to the millionaire. A man's financial standing has nothing to do with the treatment he gets from us. But it has everything to do with what we charge him.

The Friend Of All Sufferers.—Dr. Thomas' Electric Oil is a valuable remedy to all those who suffer pain. It holds out hope to everyone and realizes it by stilling suffering everywhere. It is a liniment that has the blessing of half a continent. It is on sale everywhere and can be found wherever required.

Curious Twist Of History

Anyone with an eye for the curious twists of history must be interested in the fact that Primo De Rivera, ex-dictator of Spain, was kept alive for many years past by insulin, developed in the New World, which was discovered by a man financed by the Spanish Court, nearly four and a half centuries ago.

It is estimated that there are 200,000 drug addicts in the United States.

The star-fish has no nose, but the whole of its underside is endowed with the sense of smell.

WHAT unexpected spaciousness in this Cunard Tourist Third Cabin Dining-Room, typical of the accommodation on this popular class. Intimate little tables, laden with flowers, spotless napery, and a menu of endless variety and astonishing generosity! Tourist Third Cabin rates adjusted. Cabin class rates revised. Ask for information.

Weekly sailings from Montreal and Quebec. Book through The Cunard Line, 270, Main Street, (Tel. 28-841-2), or Huron and Erie Building, Portage Ave., Winnipeg (Tel. 21-007), or any steamship agent.

Planning Big Air Field

Winnipeg May Have Combination Land and Sea Plane Airport

Plans now being formulated by a special committee of the Industrial Development Board of Manitoba aim to provide Winnipeg with one of the most unique and best equipped combination land and sea plane airports on the continent. The plans, which have been approved by the Department of Aviation at Ottawa, include an air field 3,000 acres in extent with an artificial lake about two miles in diameter.

Don't be without Douglas' Egyptian Liniment. Keep it always handy. Relieves toothache, neuralgia, sore throat, quinsy and croup. Invaluable for burns, sores, Eber's Itch and Ringworm.

A plane carrying twenty passengers has set a record by flying from Paris to London in 55 minutes.

More than 2,000 women are studying medicine in German universities.

Be Certain of SAFETY Build with Gyproc

Fire can hurl your home to destruction unless a fire-resistant material such as the new Ivory coloured Gyproc Wallboard is used in its construction.

Inexpensive, permanent, easy to apply, Gyproc Wallboard does not burn. It is exactly what you want for fire-safe walls, ceilings and partitions when you build, remodel or repair.

Ask your dealer today for full information on Gyproc Wallboard or send for interesting free book, "Building and Remodelling with Gyproc."

The NEW IVORY

Major Developments In Canada's Air Mail Service Attracting Great Attention

Canada, with her vast area and widely scattered population, is advantageously situated to derive the greatest benefits from the development of internal air mail service. The great distances which separate the principal urban centres and the steady and broad-fronted advance in settlement and development serve to render postal communication by air peculiarly valuable in the Dominion. In addition, the Post Office Department of Canada has entered into a reciprocal arrangement with the United States postal authorities whereby Canada may take full advantage of the extensive United States air mail services connecting with points in Mexico, the West Indies, and Central and South America.

The establishment of Canada's official air post services is of comparatively recent date, but the convenience of mail matter by air within Canada has been an actual fact for over ten years. In the early days of mail transportation by air, the Post Office Department, as a temporary measure, gave permission to the operating aviation companies to carry letters, entirely at the sender's risk and subject to a small fee ranging from five cents to twenty-five cents per letter, in addition to the regular postage. This fee was retained by the operating company. The successful operation of numerous "sticker" services demonstrated beyond question the essential practicability of air mail transport in the Dominion, for these services were conducted in many cases under considerable operating difficulties although not on hard-and-fast schedules.

Civil aviation in Canada assumed proportions in 1927 which justified the Post Office Department in utilizing the facilities available for the fast transport of mails, not only to remote areas but between the larger centres of population. Services of the latter type had of course to be arranged on definite time schedules and this involved a much greater problem. As a beginning a service was inaugurated by which incoming British mails were taken from trans-Atlantic steamers and transported by air to Montreal, thus considerably hastening their delivery. Later, on October 1, 1928, a service of daily frequency was established between Montreal and Toronto, and on the same day an international air mail route was opened between Montreal, P.Q., and Albany, N.Y. On July 15, 1929, the Montreal-Toronto route was extended to Detroit, via Hamilton, London, and Windsor, Ontario, and thus a point of contact with the United States air mail routes westward was established, in addition to providing the most densely populated portion of Ontario with speedy air mail service. On the same date a still further connection was made with the United States by the establishment of daily service between Toronto and Buffalo. Notwithstanding the difficulties of operation in the Maritime Provinces—scarcity of suitable landing fields, densely wooded areas, broken country, and for— the Postmaster-General inaugurated a service early in December, 1929, between Montreal, Quebec, Moncton, and Saint John.

The next major development in Canadian Air Mail Service was the inauguration of the trans-prairie route on March 3, 1930. Planes are now operating daily between Winnipeg, Regina, Moose Jaw, Medicine Hat, and Calgary, and between Regina, Saskatoon, North Battleford, and Edmonton on a schedule which elaps a full twenty-four hours off the transcontinental movement of Canadian mails. This not only constitutes a marked advance towards the coast-to-coast service which is being developed link by link, but revolutionizes intercommunication between the provinces of Alberta, Saskatchewan, and Manitoba.

It is in the outlying portions of the

"What had taste. One does not wear yellow trousers with a mourning coat."—Hummel, Hamburg.

W. N. U. 1835

country, however, that the most valuable work of Canada's Air Mail Service has been carried out. Until recently the remote settlements along the north shore of the St. Lawrence River, on Anticosti and the Magdalen Islands in the gulf of St. Lawrence, and along the sub-arctic reaches of the Mackenzie River, have been almost cut off from the outside world during the winter months. Communication was necessarily by dog team and other primitive methods until the recent dramatic change to swift aeroplanes reduced the duration of mail trips from weeks to hours.

The establishment of contract air mail service in the Mackenzie River District—the most northerly of all air mail services—in December, 1929, attracted world-wide attention. The route from McMurray, down the Athabasca River, along the south shore of Great Slave Lake, and down the mighty Mackenzie River is nearly 1,100 miles long. Hitherto, in winter months, dog teams had been the sole means of conveyance and the volume of mail was correspondingly small being limited to letters and a few newspapers. The total amount for Alkavik in the winter of 1928-29 was less than two hundred pounds. Contrast this with the remarkable conditions obtaining on the advent of air mail facilities. Ten thousand pounds of mail were carried on the first flights—over a thousand pounds for Alkavik at the mouth of the Mackenzie. The chief remaining routes are those which penetrate the rich mining areas of Ontario and Manitoba, i.e., Red Lake, Klaxissing, and Bissett. They are the principal mineral areas served by air mail in Canada.

The development of flying fields and provision of lighting facilities, not to mention the constant improvements in aircraft which may be expected during the next few years, will undoubtedly do much to facilitate the performance of regular scheduled air mail services within Canada. Meanwhile the efficiency percentages maintained by the different operating companies are remarkably high. In addition to holding the world's record for speed over contract air mail lines, the Canadian service proudly boasts that it has never lost a single piece of mail out of the hundreds of tons that have been entrusted to it.

Mature Corn For Silage

Superiority Over Immature Corn Proved By Tests

The superiority of silage from mature over immature corn is clearly demonstrated by tests conducted at the Dominion Experimental Farm, at Brandon, Manitoba. In a series of tests in which a group of six cows were fed alternately, mature and immature corn silage, a marked increase in the volume of milk produced, and in respect to gain in bodily weight, was shown by the group fed mature corn silage. The relative feed values shown by laboratory tests are: for mature corn 69.1 per cent. moisture content, 2.77 per cent. protein, .61 per cent. fat, 16.63 carbohydrates, 9.27 fibre, and 1.62 per cent. ash; for immature corn the moisture content was 82.6 per cent., protein 1.71 per cent., fat .91 per cent., carbohydrates 7.74, fibre 5.45, and ash 1.59 per cent.

Must Use Percentage Of Domestic Flour

Legislation Is In Force In Five European Countries

State legislation requiring millers to use a certain percentage of domestic flour in making of bread is in force in Germany, France, Spain, Switzerland and Portugal, states Hon. C. M. Chuliff, secretary of the overseas trade department, in a written answer to a question in connection with the proposal that the British loaf should contain a statutory proportion of British-grown wheat flour.

The minimum in France is as high as 97 per cent. it is declared. In Spain the minimum is 5 per cent. No percentage is fixed in Switzerland and Portugal, but millers in those countries must take delivery of a certain quantity of native wheat.

Under Soviet Rule

It's not all "cakes and ale" in Soviet Russia, according to Zachary Braumbeck, who has just received a pathetic letter from his brother in Omsk, Siberia. The brother wrote that the government had appropriated his wheat crop, bedding and furniture, leaving only 20 bushels of wheat for his family's use.

Still In Experimental Stage

Difficulties Have Cropped Up In Connection With Battery Brooders

A recent report of the Dominion Experimental Farm would indicate that another much heralded innovation in the poultry industry is not destined to any great success. During the past two or three years, the battery system of brooding chickens has gained some prominence in Canada; the principle being that of raising chickens in a uniformity and correctly heated room in metal batteries. These batteries are simply crates placed one on top of the other with a wire floor and equipped with troughs for water and feed. Beneath the wire floor are papers to catch the droppings and which are easily removed and burned.

The advantages of such a system are quite obvious, it is really a factory of mass production of chickens. One man can look after a large number of the babies and the wire floors make for complete sanitation. Temperature and fire risks are eliminated, spread of disease is minimized, and the feed and water troughs, which are placed outside the wire walls of the compartment, are easily kept clean.

But some difficulties have cropped up and it would seem from the report that they are serious ones. In the first place, a temperature that suits day-old chicks, is too high for the older broilers. Some considerable trouble has developed from chicks getting caught in the wire floors as might be supposed, and last, but not least, it was found that from four to six weeks is the oldest that chicks can be handled in this manner. Cannibalism and nervousness then develops in the chicks, and the mortality becomes high.

The report concludes that the battery system is still in the experimental stage and that at present will find its greatest use under hatchery conditions for the short time holding of chicks.

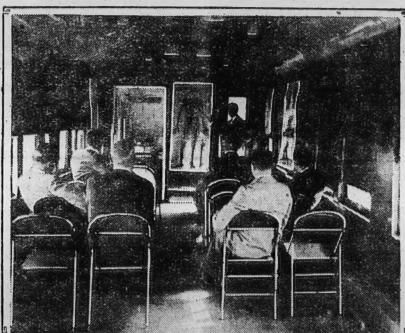

Willing To Take Chance

Norman Derham, who swam the English Channel in 1926, has written to Knute Johanson, a young Scandinavian, who proposes to cross the Atlantic in a speed boat, offering him his services as a companion, for whom Johanson has been advertising.

Vila—An empty champagne bottle seems so worthless.
Mill—What do you mean?
Vila—It's lost its pop.

It costs from \$1,800 to \$2,000 per mile to sand a road.

FIRST AID SCHOOL ON WHEELS

With a view to extending adequate First Aid instruction to its employees in the outlying sections of the system, one of the three new First Aid cars which have just been completed for the Canadian National Railways has been placed in the Western Region for service.

Fully equipped and in charge of a competent instructor, the car will travel to outlying points, bringing courses of instruction to engine men and train agents and construction and maintenance of way men who have ordinarily no means of obtaining this knowledge. While their primary use is for instruction, they are, as well, travelling stations ready to assist in emergency, and are the first cars of this type to go into service on a railroad in Canada.

Colorado Interested In World Grain Exhibition

Farmers Of Peetz District Plan To Enter Exhibit

According to the Peetz Gazette, a weekly newspaper published at the town of Peetz, Colorado, the farmers of that district are determined to demonstrate their ability to grow the best quality grain, states S. J. Latta, publicity agent for the World Grain Exhibition and Conference, to be held in Regina in 1932. They are already preparing to be represented in a number of selected classes at the World's Grain Show in 1932.

In an interesting article on this great undertaking The Gazette says: "Tentative plans are now being considered for the entrance of Peetz grown wheat, rye, barley, sweet clover, and hog millet seed and beans in the competition for the thousands of dollars in prizes offered at the World's Grain Exhibition and Conference, to be held at Regina, Saskatchewan, Canada, July 25 to August 6, 1932."

"People of Peetz feel they can favorably compete in this big show and the local Community Fair Association, has already commenced to plan the details of gathering samples that will be displayed against all world comers."

In 25 years—from 1900 to 1925—the reindeer population of Alaska increased from 3,000 to 400,000.

Nearly 4,000 Christmas puddings were shipped from England to the United States last year.

Canadian National Parks, With Wonderful Scenic Beauty, Form a Great National Asset

The coming season promises to be one of great tourist activity so far as the national parks of Canada are concerned. Officials, both of the Department of the Interior and of the railways, report an unusually large number of requests for information and advance bookings. Large numbers of inquiries have also been received in the department from motorists, in practically every section of Canada and the United States, and even from Mexico. The majority of these ask for the shortest routing to Canada's national parks, a description of the different attractions, the accommodations and particularly the facilities for camping.

A comparative analysis of the various applications shows that by all odds the strongest appeal of the parks is their scenic beauty and wilderness quality. An extract from one expresses the demand of many: "I want to visit the parks containing the prettiest mountain scenery as I want to camp out in the wilderness, fish and go mountain climbing."

Some of these letters reveal that the writers know almost nothing of Canadian geography. They have heard a rumour of the greatness of the national parks of Canada and they write to ask where they are and how they can get to them. Apparently it has come to be accepted in the minds of the travelling public the continent over that national parks represent the finest examples of magnitude, power, and beauty in nature.

(By Eva A. Tingey)

BEAUTIFUL AFTERNOON WEAR All Tingey models are created and sketched in Paris and the patterns are made in New York.

Even though the chill winds and cold may be still with us, spring is not far away and the shops are stocking up with lovely new materials. All this creates a keen incentive to be thinking of new clothes and making them.

Today's model is very slimming with its V's and tiny front dip, is lovely in cut for the normal and heavy figure. It can be belted at the natural waistline, or just below, as so many women prefer. A bow finishes the slender neckline, and others are attached to the wrists.

Marocain, crepe de chine, satin, supple moire, wool, georgette, etc., are lovely tissues for this model. Navy promises to be a popular spring color, but light blues, green, violet, red greys, and beiges are good.

This pattern may be obtained in sizes 16 to 20 and 34 to 40. It is ready for immediate delivery. It is hand cut.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

scenery, in a setting of unspoiled primitive conditions, and their name is now sufficient guarantee of their attractiveness.

Visitors to the national parks come with varied needs, some seeking health, others mere recreation, but the majority are impelled by a desire for rest and freedom. Whether they seek it or not they are usually seeking a way of escape from the increasing complexity and routine of our highly mechanized competitive life into a world of peace, solitude, and inspiring beauty. In the face of the majestic grandeur of the Rockies, the enchanting loveliness of such places as Lake Louise, the Yoho Valley, Maligne Lake or Mount Robson, a man is lifted out of a pre-occupation with his purely personal problems into a kind of deeper satisfaction and healing of mind, passing, as has been said, "through wonder into joy."

This, in the final analysis, is perhaps the strongest appeal of the national parks. They supply something which answers to a universal craving, a hunger innate apparently in every human being and which must become more deeply felt as population increases and conditions of life on this continent grow more artificial and restricted. Already, the world over, there is a recognition that our present mechanical development may sweep original conditions everywhere away. That is, perhaps, one reason why the recent announcement of Hon. Charles Stewart, Minister of the Interior, that he hoped the time would soon come when there would be a national park in every province, has met with such wide approval. The more far-sighted of our people realize that the changes which will probably come about in Canada during the next hundred years will be enormous. While Canada is already leading the world in the reservation of areas for national parks, it is recognized that the needs of the future are sure to be great and that the time to set aside areas of natural beauty is now, as the present unoccupied and primitive conditions in many parts still undisturbed.

Visitors to the national parks last year reached over half a million people but this travel, large as it is, is only in its infancy. The creation of new parks such as the Riding Mountain park recently set aside in Manitoba, the extension and improvements of federal and provincial motor highways now under way will provide new stimuli for travel and, incidentally, bring in new wealth to the Dominion. Every dollar of visitors to the parks range from a few dollars a day to as high as \$100 per day. One visitor to the Canadian West last year revealed that in addition to hotel and transportation expenses his party of four had spent \$6,000 during a three weeks visit, most of it with retail firms. Every new park created becomes an addition to our capital stock and increases our power of attracting tourists. It helps to swell the prosperity of the railway and steamship companies, hotels, lodging houses, retail and wholesale merchants, and in fact every business to affect every trade and industry.

The name national park has come to stand for such a high degree of excellence that once an area is set aside as a park, travel tends to flow to it in ever-increasing volume. Both in the returns they can give in health, and happiness and in actual economic results the national parks must become an increasing national asset.

New Method For Making Shoes

Factory methods used in mass production of automobiles are being introduced into leading shoe factory of Erfurt, Germany. The footwear is fabricated as it is transported on trays through the factory. The inventor claims the method will reduce costs and increase production.

Submarine cables of the world now have a total of 300,000 miles.

FIGHTING THE SAWFLY
Hopes of controlling the Wheat
Stem Sawfly menace in Western Cana-
da are centred in a project financed
by the Empire Marketing Board at
the Farnham House Laboratory in
England where an investigation is be-
ing conducted by W. R. Thompson,
Ph. D., D. Sc., and Dr. George Salt,
both Canadians.

An army of about 12,000 parasites
has been sent out to Canada by the
Empire Marketing Board to attack the
Wheat Stem Sawfly in the west. It
has not yet been proved that this
parasite will attack the Canadian
Sawfly species but there is every rea-
son to believe that it will because it
is commonly found as a parasite of
another wheat-attacking Sawfly
which is much less related to the
Canadian species than the common
European Wheat Stem Sawfly. Also
it is commonly found attacking the
Wheat Stem Sawfly in Russia where
climatic and other conditions are
very similar to those of the great
wheat growing areas of the Canadian
West.

"Although the Laboratory has re-
ceived no financial assistance from the
Canadian Government or from the
wheat growers," writes Dr. Thomp-
son, "the work on the parasites of the
Wheat Stem Sawfly has been carried
on as rapidly as possible. Fifty bags
of wheat stubble from the most prom-
ising fields have been collected and
two assistants have been working
continuously on this problem. To ob-
tain relief from the Wheat Stem
Sawfly in any reasonable time the work on the collection
and shipment of parasites must be
organized on a very much larger
scale. So far as we know the prin-
cipal parasite of the Sawfly has only
a single generation in a year, so that
it is not possible to rely upon arti-
ficial breeding methods for obtain-
ing parasites in large numbers. The
collection over large areas is the
only practical method that can be ap-
plied. The Director of the Imperial
Bureau of Entomology therefore
wishes to draw attention of the repre-
sentatives of the wheat growers to
this problem, in the hope that they
may be able to make some sugges-
tions as to the financing of this
work if the experimental introduc-
tion of parasites in Western Cana-
da give promising results."

Increased activity resulting in
greater damage this year is forecast
by Dominion entomologists and the
problem is one that will doubtless be
given very careful consideration by
the organized prairie wheat growers.

Household Hints

SPANISH CREAM—1 T. granu-
lated gelatine, 3 cups milk, Whites of
3 eggs, Yolks of 3 eggs, 1-2 cup sugar,
1-4 tsp. salt, 1 tsp. vanilla.
Scald milk in a double boiler, add
sugar and gelatine after it is soaked
in a little cold water, stir for a minute
until the gelatine is dissolved, pour
slowly on the yolks of eggs slightly
beaten. Return to double
boiler and cook until thickened, stir-
ring constantly, remove from fire and
add salt, flavoring. Fold in the
whites of eggs and pour the mixture
in a mould that has been dipped in
cold water. This is delicious served
with whipped cream or with a little
fruit juice and cream. Serve very
cold.

PINEAPPLE BAVARIAN CREAM—
1 envelope gelatine, 1-2 cup sugar,
1-2 cup cold water, 1 can Pineapple,
1 T. lemon juice, 1 pt. whipping
cream.
Soak the gelatine in the cold water,
heat the grated pineapple, add the
sugar, lemon juice and the gelatine,
stir until the gelatine is dissolved.
Chill and when it begins to thicken
stir in the cream whipped. If grated
pineapple is not available, cut the
sliced pineapple in small pieces and
use it.

SNOW PUDDING—1 T. gelatine,
1-4 cup cold water, 1 cup boiling wa-
ter, 1 cup sugar, 1-3 cup lemon juice,
3 egg whites.

Soak the gelatine in the cold water,
dissolve in the boiling water, add the
sugar and the lemon juice, stir until
the sugar is dissolved and cool quick-
ly. As soon as it begins to thicken
beat until frothy. Add the stiffly-
beaten whites of the eggs and add to
the gelatine mixture, beat again.
Chill and serve with a boiled custard
made from the yolks of the eggs.

BOILED CUSTARD—2 cups
scalded milk, yolks 3 eggs, 1-4 cup
sugar, 1-4 tsp. salt, 1 tsp. vanilla.

Scald the milk, beat the eggs
slightly and add the sugar and salt, stir
constantly while adding the scalded
milk, cook in double boiler until mix-
ture thickens and forms a coating
on the spoon, chill and flavor. If eggs
should curdle from too long cooking,
beat with Dover egg beater until
smooth.

Four Young People in Serious Auto Accident

**ROADSTER LEAVES HIGHWAY AT HIGH RATE
OF SPEED AND TURNS TURTLE IN DITCH,
A COMPLETE WRECK.**

**Driver Suffers Fracture of the Skull and Injury to the
Brain—Others Suffer Shock and Injuries—A
Miracle All Were Not Killed.**

(From The Viking News)

Four young people on their way to visit the Wainwright Buffalo Park last Sunday met with a serious accident at about two o'clock in the afternoon, ten miles south and east of town on the main highway, when the roadster they were riding in jumped off the grade and hurtled into the ditch. The occupants were Ivar Stodds, Ambrose Murphy and Miss Irene Rennie of Vegreville, and Miss Irene Farnham, of Viking.

The car which is reported to have been travelling at 45 miles per hour got out of control of the driver, Ivar Stodds, after one of the tires blew out, and in his efforts to stop the car he applied the brakes and it suddenly lurched off the grade, made two or three somersaults and finally came to a stop several hundred feet from where it left the grade. The occupants were thrown clear of the car onto the stumps of trees that had been cut down off the right-of-way and all rendered unconscious for a time. The driver was the first to regain consciousness and went to the R. E. Draper farmhouse nearby and summoned aid from town. The injured were brought to the hospital where it was found that the girls and Ambrose were suffering from shock and bruises, while Ivar Stodds collapsed as he entered the hospital. Upon examination by the local doctors, he was found suffering from a fracture of the skull at the base of the brain, with pieces of his felt hat, straw and dirt adhering to the tissues of the brain. By a very skillful operation the doctors removed the debris and the pressure on the brain, and the plucky young man has a fighting chance of recovery unless inflammation sets in. Miss Rennie is expected to be able to leave the hospital today for her home at Vegreville accompanied by Ambrose Murphy who spent only a few hours in hospital. Miss Farnham's condition is reported quite favorable although her injuries were severe.

Judging from the wreckage of the car that was hauled into town on Monday it is a miracle that anyone escaped death. In it's mad dash which might have spelled death to the four occupants, the tracks show that it left the ground completely for at least twenty feet on two occasions before it finally came to a stop. It had just gone down a steep hill and hit a rise in the road when the accident happened with almost fatal results. The driver is employed at the Thomas Garage, Vegreville, and his parents reside at Lloydminster.

VIKING

The eighteenth annual convention of the Edmonton district W. C. T. U. will be held in the United Church, Mannville, on Tuesday and Wednesday, May 6th and 7th. The sessions open on Tuesday at 10 A.M. and will conclude on Wednesday evening at 8 o'clock with an address by Mrs. L. C. McKinney, provincial president. The meetings will be presided over by Mrs. M. Hyslop, of Viking, district president of the Union.

Seeding of wheat in the Viking district is practically three-fourths finished. Moisture conditions are considered ideal and somewhat better than at this time last year. Over half an inch of rain fell on Monday and Tuesday and aided by local showers during the previous ten days there is sufficient moisture to carry the germination and growth for a period of three weeks. Cool weather prevails and the moisture that has fallen is being preserved. There is possibly a slight decrease in the acreage sown to wheat. On account of the very dry fall there was very little plowing done and much of the crop has been disced in which may retard growth and yield unless the district is blessed with frequent showers throughout the growing season. The farmers are staying with the old tried varieties of wheat such as Marquis, and it is estimated that at least twenty per cent have used registered seed. The recent rains have improved the feed situation. Stock in the district has wintered remarkably well. There is a tone of optimism throughout the whole district and the outlook at this time is very promising.

Since the announcement of the provincial election to be held on June 19th political talk has become very active throughout the whole province. It is expected that the U.F.A., the Liberals, and Conservatives will have candidates in the majority of the constituencies.

One of the mail planes landed in the field of the Skaltitz farm just west of town on Monday, being forced down on account of low visibility. The pilot stated that he had to come down to find out where he was. It took some effort to take off from the wet field.

The Alberta Poultry Pool has opened a station in the Collision building, one door north of the Red & White

store, with Royce Gravett as local shipper. Note ad. in this issue.

Among those who attended the opening of the new Wainwright hotel last Wednesday were Mr. and Mrs. C. Dupre, Ben Markell, Mr. and Mrs. Chas. Broughton, Miss Harris and Mr. and Mrs. F. Miller.

Mrs. Royce Gravett and baby arrived from Calgary on Monday. E. B. Feir, of Stettler, returning officer for the federal riding of Camrose, was a visitor in town on Friday.

R. J. Darrah and son Gerald returned on Saturday from a month's stay at the coast.

The Wainwright Dramatic Club, under the direction of Mr. R. G. Dunsmore, will present the mystery comedy-drama, "Cat O'Nine Tails" in the Viking Elks Community Hall, on Wednesday evening, May 14th at 8:30 o'clock sharp. The Wainwright players come here under the auspices of the Viking Tennis Club and the proceeds will be used for improving the tennis grounds and reducing the debt incurred when the cement court was laid last fall.

The play in itself is one that is highly recommended. Mr. Dunsmore is widely known as a producer and director of home talent plays, and a real treat in this line is in store for this community.

Popular prices will prevail. Dance after play.

A meeting of the Horse Shoe Club will be held in the town hall on Tuesday, May 6th at 8 o'clock p.m. for the purpose of organizing for the season's activities. All members and others interested are asked to turn out.

PREMATURE

An Irishman lay dying when the odor of cooking assailed his nostrils. Summoning his weeping daughter to his bedside he said:

"Nora, darlint, ain't it doughnuts that I smell?"

"Right for ye, father," the girl replied.

"And would ye be asking your mother if I can have one before I die?"

The daughter delivered the message to mother in the kitchen and brought back this answer:

"Mother says ye cannot have one of them doughnuts; they're for the wake."

KINSELLA NEWS

(By J. J. Overbo)

The Kinsella Tennis Club has got away to a good start. The court has been smoothed down and new wire on order and is expected to arrive any day, and in a very short time everything will be in readiness. Invitations are extended to all tennis enthusiasts to come and try out the court.

A dance sponsored by the Tennis Club will be announced later.

A meeting of all those interested in baseball will be held soon, with a view to forming a baseball club. All baseball fans should watch for announcement to be made later.

R. Swab, Lewis O'Leary and Geo. Jewett have returned from a trip by auto to the Goslin district, where they have taken up homesteads. The Goslin district is located north of North Battleford, and is reported to be well settled with the exception of one township which was recently thrown open for homesteading. The land has been mostly covered by timber but several fires which swept over the district several years ago cleared the land fairly well and the stumps are rotting.

These new homesteaders are very enthusiastic about their new location. They also state that there is an ample amount of hay and feed for stock and running creeks with several large lakes plentifully supplied with fish. They are located about thirteen miles from Goslin with the railroad surveyed right through the township.

A number of other homestead seekers are contemplating taking a trip in the near future with a view to locating in this district. Anyone is entitled to homestead rights even though they have had homesteads before, providing they have proved up on their first homestead before 1920. They must however have a letter from Ottawa showing themselves eligible before they will be permitted to file.

The Golf Club dance held in the pool hall on Friday, April 25th was a brilliant affair. The hall was crowded to capacity, being nicely decorated with golf clubs. Mr. A. A. Wadden, president of the club, acted as floor manager, with Mrs. R. S. Nease as Secretary. The music was furnished free by the Hornsby boys and Mrs. Wadden at the piano, with Mr. Wadden spelling off on the drums. Proceeds from the dance enriched the Golf Club to the extent of about \$30.00.

Mrs. Pete Olsen and son of Edmonton are visiting at the parental home for a few days.

A. D. Russell has purchased the N. W. Quarter of Section 9-45-10 from Harry Meakins.

The Kinsella W. I. had three speakers last month. Mrs. Jno. Scott, the

district conference report, and Mrs. Powell and Mrs. Johnston on "Gardening." The St. Patrick's dance cleared \$5.00 and an auction sale \$2.75.

Miss Edith Watson has completed a week's trial teaching at the Phillips school and is returning this week to Camrose to complete her course at Normal.

A splendid entertainment was put on in Lee's Hall on Saturday afternoon, April 26th by the Kinsella Women's Institute, in honor of the Grandmothers of the district. A specially decorated grandmothers' cake had been prepared by the members, and a delicious lunch was served during the afternoon. The grandmothers, numbering nine, were all presented with a bouquet of flowers, and an unusually good program was very much enjoyed.

Miss Wadden, of North Battleford is enjoying a visit with her parents Mr. and Mrs. A. Wadden at Kinsella.

Several accidents happened in various parts of the district this past week. Donald McCaskell, of the Rodino district had the misfortune of being quite seriously injured, when the team he was driving got frightened and ran away. He was immediately taken to the Municipal hospital at Viking for treatment, where he is reported as doing fairly well.

Mr. T. Daniels while out attending to some horses received quite a nasty kick in the face. He is improving nicely at his home north of town.

Mr. and Mrs. Geo. Fergatead, of Round Hill, Alta., are spending a few days visiting at the home of Mr. and Mrs. Nease.

The Y.P.S. of the Rodino district have started an athletic club. Suitable grounds have been secured just east of the Rodino school. The tennis court has been completed and invitations are extended to all interested to come and try out the court. This Society is very enthusiastic about the club, and intend adding other games to the grounds as time goes on. The Y.P.S. meets twice a month.

The moisture condition is growing brighter every day. Considerable rain and snow fell during last week, which moistened the ground to a depth of several inches. A shower and steady rain commenced again Sunday night, which on Monday morning turned into a steady downpour of snow and rain, mixed, which continued throughout the day and with every indication of lasting for some time.

Farmers are indeed thankful that a break in the dry spell has at last come and are feeling optimistic as to this years crop and fodder prospects.

NEWS ITEMS FROM KINSELLA

Mrs. Ferries and daughter returned from Edmonton on Thursday last, where they had spent the past few days.

Miss Kathleen Rodd of Edmonton spent a few days the past week at the home of Mr. and Mrs. J. Stronach. She returned home Saturday evening.

Mr. and Mrs. Cunningham and family of Edmonton spent Saturday with Mr. and Mrs. Nease.

The dance put on by the Golf club was well patronized and a very pleasant evening was enjoyed by those present. The proceeds of dance was \$30.00.

The Ladies Aid will meet at the home of Mrs. William Kerns on Thursday afternoon, May 8th at 3 p.m. sharp.

The Women's Institute met on Saturday afternoon in Lee's Hall with a very good attendance. After the business meeting a short program was given consisting of vocal duets and solos, a dance by four of the girls of the public school, and several readings. It being Grandmothers day the roll call was answered by giving the names of your grandmothers. At the close of the program each Grandmother was presented with a small bouquet of flowers for wearing on their dresses or coats. There were four grandmothers present. Refreshments were served by Mrs. F. Murray, Mrs. Ky'e and Mrs. Watson. The meeting closed by singing "Blest be the tie that binds."

Miss Maxine Wachter returned to Edmonton on Saturday evening after spending the Easter holidays at her home here.

Miss Ella Cormack spent the week end with the Misses Alice and Mae Murray.

Mr. J. Ansell left by motor on Saturday evening for Calgary.

A few local showers and snow flurries is making everyone smile, let us hope we get plenty of rain this year as it is much needed.

Mrs. Sam Murray of Jarrow spent Saturday afternoon with Mrs. James Murray.

Mr. Joe Justik returned to Camrose on Sunday where she is attending Normal.

Miss Marian Watson is teaching at Overleigh this week, she will return to Camrose next week where she is attending Normal.

Mr. Tom Candy returned home from Montreal on Friday evening.

Mr. Ben Wachter, B & B foreman on one of the C. N. R. outfits spent Sunday at his home here.

Municipal District of Kinsella No. 424.

The Domestic Animals Act (Mun.) SALE AND REDEMPTION OF IMPOUNDED ANIMALS (Sec. 48)

Notice is hereby given under Section 48 of The Domestic Animals Act (Municipalities) that:

One buckskin mare, age about 8 years, weight about 1100 lbs. white face, right foot dark, black nose, mane and tail trimmed, no visible brand.

One bay gelding, branded lazy AW bar above, on right thigh, age about 8 years, weight about 1100 lbs. star on forehead. Left hind foot white, no visible brand other than above, were impounded in the pound kept by L. Schmutz located on the S. E. 22-45-12 with on Monday the 7th day of April, A.D. 1930, and that the said animals were sold on the 21st day of April, 1930, to: mare to Mrs. Schmutz and the gelding to F. Mayne.

and that said animals may be redeemed by the owner or on his behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the municipality and the purchaser of said animal.

B. H. GREEN, Sec.-Treas.

Post Office, Sedgewick, Alta.

The Wastebasket

There's a Difference
An Englishman entered a Scotch butcher shop and ordered: "A sheep's head."

The butcher called down to his assistant in the cellar: "Alek, bring up a sheep's head."

Then the Englishman chimed in: "I want an English sheep's head."
So the Scotch butcher shouted down the cellar again: "Alek, he instructed, 'take the brains out of it'."

JARROW NEWS

Henry Treichel was taken suddenly ill on Wednesday of last week and on being taken to Viking was found to be suffering from spinal meningitis. He was rushed to the Isolation hospital in Edmonton and is reported as making favorable progress.

Mrs. Kennedy who has been visiting in town for some time returned to her home in Edmonton. Her daughter, Mrs. Jenkins accompanied her to the city where she will spend a week or two.

Mr. and Mrs. Ed. Peet are rejoicing over the birth of a son in Viking hospital on Wednesday, April 24th.

School opened on Monday with rather a poor attendance on account of the rainy weather.

Mrs. McNeil and small daughter Isabel are visiting at her parents in Kelsey.

Ward and Marion Matthews who have spent the winter in Coalinga, California, returned to their home on Sunday.

Mrs. J. Miller is home from the General Hospital, Edmonton, and is feeling very much improved in health.

Mr. Roger Wahlund is moving from this district this week.

Mr. P. Bamsey left for Edmonton where he has secured a position. He will move his family there at the close of the school term.

The Tennis Club held its annual meeting on Tuesday evening, Ward Matthews was elected president, with A. Morby, Sec.-Treas., and Pete Lindquist, M. Matthews and E. Luxton as grounds committee.

The heavy rain and snow on Monday makes everyone feel more cheerful as the moisture will start the new crop.

The regular meeting of the Board of Trade will be held on Monday evening when plans will be completed.

ed for the big Sports on June 3rd. The Ladies Aid will meet at the home of Mrs. Waite on Wednesday afternoon, May 6th. All members are requested to come as plans will be made for the booth on June 3rd, and all visitors are cordially welcome at all times.

The Community Club held their regular business meeting on Tuesday evening. Plans were discussed re the Sports Day and a dance planned for Saturday night, May 10th. Watch for posters for particulars.

JARROW SCHOOL REPORT

FOR MONTH OF APRIL
Grade VI.—Marshall Burns 66.7, Ruth Meakins 63.5, Wesley Orr 63.
Grade V.—Ina Bamsey 74, Frank Manners 73.7, Lois Coe 71.7, Hannah Belton 70.2, Earl Wahlund 59, Ethel Peet 53.9, Gordon Matthew 53.2, Eric Wahlund 53, Ralph Peet 40.
Grade IV.—Audrey Carter 78.6, Roy Whitford 77.4.
Grade III.—Muriel Carter 83.8, John Ronjon 83.5, Lois Morgan 77.1, William Meakins 76.2, Gertrude Bamsey 70.1, Vernon Wahlund 64.2.
Grade II.—Ludwick Jackowski 82, Nora Morgan 81.8, Jackie Wilkinson 80.8, Arthur Bamsey 75.5, Wendell Orr 75, Marjorie Coe 65.
Grade I. Sr.—Roland Bick 89, Evelyn Miller 88, Clarence Meakins 82, Viola Meakins 79, Gordon Wahlund 75.
Grade I. Jr.—Betty Carter, Billy Manners, Elsie Belton, George McKenzie.

This is the standing of the pupils of Jarrow school for the month of April.
Margaret Dinwoodie, Teacher

Now is the time of the year to advertise for those stray horses and cattle. A small ad in this paper will help you.

WRIGLEY'S
Drowsiness is dangerous.
Weary miles seem shorter and the day is brightened when you have Wrigley's with you.
In sugar peas you up. Its delicious flavor adds to any enjoyment.

CONSTIPATION COMPLETELY GONE
writes Mrs. W. Walker, Thousands say constipation, indigestion, gas and overeating with "Fruit-a-tree" Constipation Clearing Syrup. For a heart quiet, get "Fruit-a-tree" from drug stores today.

WORLD HAPPENINGS BRIEFLY TOLD

No more British trawlers will be placed on Ontario farms by the province. The government announced the experiment had not proved satisfactory.

Sergeant-Major William J. Clement, Guelph's oldest soldier, celebrated his 93rd birthday, April 22. He has spent a lifetime in the army, yet has never seen a single battle.

Robert Bridges, poet laureate of England, died in London, April 21. Mr. Bridges, who has been poet laureate since 1913, was 86 years old. His works were known all over the world.

Official announcement has been made for rendition of Weihsaiwei, a British leasehold in Shantung, back to China. The agreement was signed by Sir Miles Lampson, British minister, and C. T. Wang, Chinese foreign minister.

Coming to the end of their long road, the delegates of the great five naval powers affixed their signatures to an historic treaty limiting and reducing the navies of those of them and placing certain restrictions upon the sea forces of the other two.

If the luck of certain Port Burwell, Ont., fishermen keeps up, housewives soon may be ordering goldfish from the fish shops. Fishing in Lake Erie, about a mile west of the harbor, the fishermen brought in a live goldfish, about eight inches in length, in their nets.

When Lord Byng returns to England, he will apparently resume his duties as chief commissioner of Metropolitan Police and head of Scotland Yard. He has been staying with a friend near Port Elizabeth, S.A., recuperating from his serious illness of last December.

A Picturesque Ceremony

One of the most picturesque ceremonies held in Rome, Italy, this year, was on the feast of St. Agnes, when the blessing of the lambs was observed. White-veiled girls carried the garlanded animals from the fleece of which is woven the pallium worn by Roman archbishops through the streets in procession before the blessing.

Ninety per cent of the people now in Manchuria are Chinese.

FAINT, DIZZY SPELLS

Had To Sleep Propped Up In Bed

Mrs. Norman Bishop, Salisbury, N.B., writes—"I was troubled with faint and dizzy spells and when I would lie down I would suffer terribly with smothering spells. I got so bad I had to sleep propped up in bed."

"My doctor said it was my heart and nerves, and that I needed a good heart tonic."

"I was advised to take

and I had not taken one box when I could lie down and sleep like a child."

Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co. Limited, Toronto, Ont.

W. N. U. 1853

News For Horse Lovers

Statistics Show They Are Hard To Displace

That farmers all over the world realize the advantages of horses for agricultural work, is shown by the following figures just published by the National Horse Association:

In 1788, the only horses in Australia were one stallion, three mares and a colt. In 1800 they had increased to 230; in 1850 to 159,951, and now there are 2,250,361.

In Great Britain there are 1,204,198 horses engaged in agriculture. Despite the enormous depletion of horses in France during the war, there are now 3,000,000 in that country.

Although millions of pounds have been spent in the United States trying to displace them, there are 20,000,000 horses and mules in the country.

Germany has 3,805,000 horses, excluding those attached to the Army.

Irrigation Project A Success

Value Of Production In Lethbridge Area Greatly Increased

Farmers in the Lethbridge Northern Irrigation Project were very successful in 1929, according to the annual report tabled in the Alberta Legislature by Hon. W. V. Smith, Minister of Railways and Telephones. The value of production that year was \$2,477,500, or an increase of \$932,257 over the year before. The occupied part of the Project is growing each year and now represents about half of the whole.

YOUTHFUL CHARM

All Tingey models are created and sketched in Paris and the patterns are made in New York. Here's a darling frock for college girls and debutantes. It has a moulded bodice and softly flared skirt—a style adorable for slim young bodies. The collar and cuffs are charming too, easy to make and yet so fascinating when finished.

Flat silk crepe and wool crepe are lovely for this model, but another suitable and charming medium is moiraine.

Imagine, for instance, soft green scarlet moiraine, with organdy ruffled with cream tinted valenciennes to match.

Another extremely pretty way of treating the collar and cuffs is to use organdy with ruffles of narrow matching ribbon. Sometimes this can be purchased with a tiny metal edge which makes a most attractive finish.

Of course a bought collar and cuff set can be worn with this model. This pattern may be obtained in sizes 14 to 20 and 24 to 30. It is ready for immediate delivery. It is hand cut.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

How To Order Patterns

Address: Winnipeg Newspaper Union, 173 McDermott Ave., Winnipeg

DON'T SUFFER WITH DANGEROUS INDIGESTION

Do you suffer after meals with a belching, from sour and acid stomach? Many believe they have heart trouble and tremble with fear, expecting any minute to drop dead. This condition can be prevented, likewise relieved.

Take Carter's Little Liver Pills after meals and neutralize the gases. Sweeten the sour and acid stomach, relieve the gas and encourage digestion. The stomach, liver and bowels will be cleansed of poison, painful and dangerous indigestion disappears and the system enjoys a tonic effect. Don't delay. Ask your druggist for 25c pkg. of Carter's Little Liver Pills.

Annuities For Judges

Legislation To Be Introduced At Present Session Of Federal Parliament

Legislation respecting annuities to judges of the Supreme Court of Canada and the Exchequer Court on reaching the age of 75 years is to be introduced at the present session of parliament.

A resolution placed on the order paper of the House of Commons by Hon. Ernest Lapointe, reads:

"That it is expedient to amend the Judges' Act to provide that an annuity equal to his salary at the time he ceased or ceases to hold office may be granted to a judge of the Supreme Court of Canada or of the Exchequer Court of Canada who held office on March 31, 1927, and continued or continues in office until he attained or attains 75 years of age; and that an annuity equal to two-thirds of the salary annexed to the office which such judge holds at the time he ceases to be a judge may be granted to a judge of the said courts, appointed after March 31, 1927, attaining 75 years of age after service of 10 years, or aggregate service of 10 years in that office and as judge of a provincial superior court."

Recipes For This Week

(By Betty Barclay)

PRINCESS SALAD

(Serves 6)

- 1 head lettuce.
- 1 can green asparagus tips.
- 2 fresh tomatoes.
- 2 large oranges.

Pimento and mayonnaise.

Place one slice of tomato on each salad plate on which has been arranged a bed of lettuce. Pyramid 3 asparagus tips on tomato slice. Top off with mayonnaise and a strip of pimento. Arrange 4 sections of orange around the tomato.

ECONOMY MEAT PIE

Cut left-over meat and vegetables into uniform medium-sized pieces. Mix with an equal amount of medium cream sauce (1 can milk, 2 tablespoons flour, 2 tablespoons butter). Season well with onion, salt, pepper, etc. (Use left-over gravy with cream sauce if possible). Cover with a thick pie crust, biscuit dough, or layer of left-over mashed potato mixed with milk (one slightly beaten egg can be added to potato if desired). Bake in a moderate oven until the crust is cooked, or until browned and heated through if potato is used.

Banquet For Livestock Men

Old Timers Will Be Entertained At Calgary Exhibition

One of the events of the 1930 Calgary Exhibition and Stampede will be the dinner to be given by the Canadian Pacific Railway on Tuesday, July 31, to the men who were actively engaged in the livestock industry in the territory bounded by Moose Jaw on the east to Kamloops on the west, and from Red Deer River on the north to the international boundary, prior to December 31st, 1920. The guests must have been at least 20 years of age at that time and engaged in the ranching business either as owners, managers, foremen, cowpunchers, cooks or horse wranglers.

Filletting Of Fish

Filletting of fish in the Peter Pond district, a couple of hundred miles north of the Battleford district, in Saskatchewan, was undertaken this winter for the first time, when 40,000 pounds of whitefish and 5,000 pounds of jackfish were filleted.

In China there is one qualified doctor to every 740,000 inhabitants. In Great Britain the proportion is one to 1,400.

Grand Falls, in Labrador, is said to be the highest waterfall in the world. It is 2,000 feet high.

About one-half of every bone in a human body is phosphate.

Determined By Owner

Milk Production Of Dairy Cow Depends On Pasture and Winter Feed

The average yield of milk per cow is computed statistically and the damaging figures are given to the tenant. There are, however, one encouraging feature about these cow averages, for in the lifetime of a generation our foster mothers do yield to the persuasive influences of publicity and propaganda and step up the average about 200 pounds. Our cows are improving, gradually; there is no doubt about that, but as husbandmen, or dairymen are we making similar progress in the number of acres required to maintain a cow respectably for a year?

A dairy cow has absolutely no choice as to her parentage or sustenance. The average milk production is determined by the owner, not by the cow. The number of acres required for pasture and to produce winter feed is really worse than the average milk yield. And here again the owner or farmer is the deciding factor.

It is probably a conservative statement to make that a full grown cattle head requires 3 acres for summer pasture alone, 1½ acres for hay and still another acre or two for grain, silage and roots. Roughly speaking, between 5 and 6 acres of good farm land are utilized in the maintenance of every cow or maturing steer. It is good grazing, as pasture goes, when three acres will maintain an animal for the summer season. On some of the best grazing land in Ontario only 25 head are turned on to 100 acres.

Through improved methods of grassland management, pastures in the Old Country have been made to maintain one head per acre. In Canada we cannot expect to equal the grazing possibilities of English meadows, but our pastures could be enormously improved through fertilization and better management.

Considering rental values inconvenience incident to water supply and pasturing live stock away from home, it would appear that \$5 to \$10 per acre could be spent annually on pasture improvement, and still leave a better profit for the owner. An annual expense of this amount has not been incurred where experiments have been tried in Canada and United States, and the results have been highly satisfactory.

Powerful New Gun

A new gun capable of firing .50 calibre bullets nine miles at a rate of 800 a minute has been accepted by the U.S. navy department and will be manufactured as one of the newest and most deadly offensive modern arms. The gun is the invention of Robert F. Hudson.

Canada's Honey Production

The annual production of honey in Canada is about 30,000,000 pounds, the principal commercial users being confectioners, bakers and bottlers.

An average healthy man should be able to lift two and one half times his own weight.

Establishing Training Centres For Criminals

English Prison Commission Plans To Train Men In Suitable Work

As part of the scheme to reclaim young criminals, the English prison commission will establish a series of training centres, the first of which will be at Nottingham, where men of a special class between the ages of 21 and 26 will be sent. The aim will be to train each man in the work for which he is best suited. The men will work eight hours a day.

Speaking of the scheme, an official of the prison commission said in an interview: "Probably we shall attach some of the men to the building parties and engineers. There will be physical training, and in the evenings educational pursuits." Further the official said: "Criminals will not be sent to the training centre direct by order of the courts, but will graduate from the prison to the training centre."

Sowing Sweet Clover

The Co-operative Creamery of Cardston, Alberta, announces the receipt of orders and sales of sweet clover seed in Cardston, to surrounding farmers totalling over 10,000 pounds. This is in response to its campaign among the farmers asking them to sow sweet clover seed this spring in the interests of an improving dairy and livestock business.

Cut Down Food Waste
---by covering all perishable goods with Para-Sani Heavy Waxed Paper. Para-Sani moisture-proof texture will keep them fresh until you are ready to use them.
You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Centre Pull" Packs in sheet form for less exacting uses. At grocers, druggists, stationers.

CHAPTER X.—Continued.

"I wonder who wove you," she mused dreamily. "You must have seemed almost a part of him as the weeks passed and he saw your loveliness unfold. Did he dread the finishing of his task, I wonder, knowing that at its end he must give you up forever? And did he know that when he was only a memory his work would live, cherished by some one thousands of miles from his own birthplace?"

She stooped to brush a hand over the silky surface.

"I think you were woven on an old, old loom," she murmured. "You were, perhaps, the only beautiful thing in some humble room. I think that little children watched you grow, and touched you with small, reverent fingers. I think..."

Charlman stiffened, suddenly conscious that a shadow was lying across the rich color of the old rug; and the blood flew to her cheeks as she saw Jim Bennett in the doorway. Then she sprang up, laughing, in real confusion.

"How long have you been there, listening to me go on like that?" she asked.

Jim grinned.

"Not long enough to be called an intentional eavesdropper; but long enough to wonder—"

"Wonder what?" urged Charlman as he passed.

"If you'd gone dotty—making such passionate love to an inanimate object. Is it something new?"

"New!" echoed Charlman, in amazement. "Can't you see with a single glance that it's ages old? Oh, Jim! wouldn't it be wonderful to furnish a home with beautiful things like this? Why, just to walk on it seems a—"

"In that case," commented Jim, seating himself on a corner of the doctor's desk, "I don't know as 'Home, Sweet Home' would be a real comfortable retreat. If a fellow got hollered at every time he happened to step on a rug that was in the way—well, your right, Charlman, the air would be liable to become

charged with something related to profanation!"

Charlman laughed. Then her eyes grew troubled, and she questioned: "But you like it, don't you, Jim? You see its beauty?"

The young man, sensing that this question was a serious matter to this girl, looked down at the rug thoughtfully, then up at the window hangings—at the candlesticks upon the mantel, and at last came back to the anxious eyes of his old playmate.

"Yes, I like it, Charlman; but I was wondering if what pleased me wasn't, maybe, just the whole thing. It looks like you, somehow."

"I mean, that's why I like it, I suppose," he added honestly. "If you were to hang ten-cent muslin at the windows, and put an American rug with a blue dog in the middle of it like Lizzie Baker's, on the floor, I'd think it was all right because you said so. In some ways, Charlman, I'm a damn fool!"

The girl laughed, though she was secretly touched; and asked: "What brings you out this hour of the morning?"

"A trip over beyond South Wickfield, to see about a mortgage for the bank. Thought you might go with me. It's a bully day."

"So it is," she replied regretfully, with a second longing glance toward the open door, "but I've just refused to go with the two M.D.'s because of an extra lot of duties."

"Let 'em wait a day longer. If I could cut out one of those M.D.'s I'd see a ray of light in the surrounding gloom."

"Better take your mother," suggested Charlman, making an unsuccessful effort to suppress a smile.

"She can't go, I—"

"So I'm second fiddle? I wonder, Jim, will any girl ever be anything else to you?"

Instantly, Charlman would have given worlds to recall those words. A look sprang into Jim Bennett's face that brought back an almost forgotten memory—the same look that had swept over his countenance when as a small boy he had been reproved by the teacher because

"In a flash the whole scene came back to her: the old schoolroom with its familiar odor of chalk and much-thumbed books—Jim, back at his desk for the first time since his father's funeral—the class standing to read, "O Captain, my Captain," and a cruel fate bringing to the boy's turn those words:

"My Captain does not answer,

His voice is idle, still,

My father does not feed my arm,

He has no pulse or fail..."

And Jim, white-faced, thin-lipped had refused to read. He had been sent home in disgrace, carrying a sharp reprimand from a teacher who saw in the defiant pupil only an unruly little boy. It was Charlman Davis who opened her eyes to the true state of things, when, as the doors closed behind the white-faced culprit, she had burst into a passion of sympathetic tears.

"Don't you see," she sobbed, "he couldn't read it without crying?"

His own father... only the other day... And he couldn't cry before the whole school, could he? So... so...

Be it said for the teacher that she cried herself, when brought face to face with her own thoughtlessness. Later she told Grandma Davis that she had received a lesson she never could forget. And now, years afterward, the scene came back to Charlman with fresh poignancy, and she knew that somehow, she had hurt the grown-up Jim in the same way he had been hurt on that long-gone day when the teacher misunderstood: Was it possible that she, too, misunderstood him?

Jim, who had thrown his hat on the doctor's desk, reached for it, and, ignoring her careless words, started toward the door. But Charlman, always quick to acknowledge a mistake, barged the way, and the surprised young man felt her hand slip into his.

"Jimmy, I hurt you, didn't I? I don't know what made me such a beast. Just for that I'm going to drop everything and go to ride with you. John Carter can eat cold beans this

noon, for all I care! Just wait till I tell Grandma, and—"

Jim laughed, a queer, choky little laugh that she knew came hard.

"Don't be an idiot!" he said. "You haven't hurt me, Charlman; and I won't have you going just for that reason. Honestly, I don't want you to go now. I've got things to mull over in my mind, and you're a disturbing influence. Run along and get your work done. I'm all right."

"But I'm not," smiled the girl. She was gently propelling him out of the doctor's office and toward the house.

"I feel the need of air and sunshine, and it's your duty to see that I get both. You talk with Grandma while I set the dinner table, so I won't feel so hurried to get back."

She was away, leaving him standing at the door of the old parlor where Grandma Davis was keeping her accustomed vigil.

"Hello, sonny," she greeted him. "What you doing away from the bank this time o' day?"

"Running down some interest money," explained Jim. "I've persuaded Charlman that it's too good a day to waste indoors."

"So 'tis," agreed the old lady, "and a ridell' do her a lot of good. I'm hoping maybe she'll get out more often when Doctor Carter gets the car he's ordered. I'll be real natural for him to take her when he rides off in the country, won't it?"

"Too darn natural," replied Jim; then, to change the subject: "What's been happening on Broadway this morning, Grandma?"

"You mean Main Street? Well, I'll admit I've seen things more lively than they've been today; but Lizzie Baker lost her seersucker petticoat right on the sidewalk, and had to step out of it and scurry home. It was worth considerable to see that."

"Gosh! I'll say it was!"

Jim laughed so heartily that Charlman, setting the table in the room beyond, breathed a sigh of relief, and called: "What's happened?"

"It is so funny for Lizzie Baker," replied Grandma. "You leave that table, dearie. If you're late back the doctor can set it himself; and you mustn't keep Jim waiting. There's nothing irritates a man like being kept waiting."

"The doctor's set; and I won't keep him waiting a minute longer. Ready, Jim?"

"He nodded, rising slowly as if reluctant to take his eyes from the picture of the girl made as she waited, with the dusky hair as a background for her hair down. A gleam across her arm, added a splash of color that matched her cheeks; and if the young man had been slow to appreciate the beauty of an oriental rug, he was certainly not slow to appreciate the charm of his old playmate."

"What's your hat?" asked Grandma. "You're not going clear to South Wickfield without a hat!"

Charlman laughed.

"I must surely am! After the gorgeous greenness that Jim's accustomed to, I'd be ashamed of—"

"Shucks!" broke in Grandma. "Your old black straw with the pink roses is enough right prettier than that—that—"

Words failed her, and the two young people laughed as Jim responded: "Don't worry, Grandma. She doesn't need a hat—not with all that woman's glowing glory!"

The draughts, Come on, Charlman, We'll have to break the speed laws if I get you back in time to cook dinner for your boarder."

"Don't you do any reckless driving," warned Grandma, as they moved away. "I'm not so feeble that I can't start dinner if you're late. If you go past the Bascombs' you stop and get that mail order catalogue I lent to Emmy. She's liable to forget to return it."

(To Be Continued.)

Does Not Always Work

Rich People Who Dress Poorly Sometimes Get Shabby Treatment

That the poor must dress smartly while the rich can dress as they like is a suggestion not borne out by the recent experience of one of Britain's richest men, who was turned away from a London hotel because he looked shabby. As a matter of fact, his income is about \$5 a minute, and the wage-hill of his domestic staff over \$200 a week. Well known on the Scottish golf links, he has been pulled up more than once by club colleagues who have noticed that the soles of his boots have seemed desecrated of parting company with the uppers.

CORNS RELIEVED instantly!

PUTNAM'S Corn Extractor

Don't "Dose" Headache

RUB forehead and temples with Vicks; also melt in hot water and inhale the vapors.

This clears the head and usually brings quick relief, especially in those cases which so often accompany colds.

If headaches come too often, consult a physician.

VICKS VAPORUB
OVER 21 MILLION JARS USED YEARLY

Using Automatic Pilots

British 'Planes Make Long Flights With Robot Control

The entire squadron of British night bomber planes, fitted with "robot" electrical controls, has flown continuously as far as 400 miles without human pilots taking charge. Routes from South England to Scotland have been followed, with automatic pilots, actuated by radio from the ground, in complete charge, and the aeroplanes brought safely to a predetermined destination. The automatic landing is accomplished by means of a weighted wire, which, as soon as it comes in contact with the aerodrome, causes the aeroplane to "flatten out" and glide in with the engine throttle back.

HEALTHY CHILDREN ALWAYS SLEEP WELL

The healthy child sleeps well and during its waking hours is never cross but always happy and laughing. It is only the sickly child that is cross and the sickly child is cross because it does not sleep well; if they are cross and cry a great deal, they will surely get the Tablets and they will sleep well and happy again. The Tablets are a mild but thorough laxative which regulate the bowels, loosen the stomach, relieve constipation, colic and indigestion and promote healthful sleep. They are absolutely harmless and may be given to the newborn babe with perfect safety. You can obtain them from any drug dealer or by mail, post paid, from the Dr. Williams' Medicine Co., Brockville, Ont.

Maxims Treasured By King

Are Hung On Library Walls At Buckingham Palace

Maxims treasured by the King and hung by him on the walls of his library and business room at Buckingham Palace, were quoted by Sir Charles Ferguson, Governor-General, of New Zealand, at a school which he visited during his farewell tour. They were: "Teach me to be obedient to the rules of the game. Teach me to distinguish between sentiment and sentimentality, admiring the one and despising the other. Teach me neither to proffer nor to receive cheap praise. If I am called upon to suffer, let me be like a well-bred beast that goes away to suffer in silence. Teach me to win, if I may; if I may not win, then, above all, teach me to be a good loser. Teach me neither to cry for the moon nor over split milk."

A Real Asthma Remedy. Dr. J. D. Kellogg's Asthma Remedy has never been advertised by extravagant statements. Its claims are conservative indeed, when judged by the benefits which it performs. Expect real relief and permanent benefits when you buy this remedy and you will not have cause for disappointment. It gives permanent relief in many cases where other so-called remedies have utterly failed.

Idea Is Right

But People Should Build Foundation Under Air Castles

"If you have built castles in the air, your work need not be lost; that is where they should be. Now put the props under them," said Henry David Thoreau. Helen Keller says we cannot always realize our ideals, but we can always realize our realities, and our ideas must be practical if we are to make a religion of them and live by them. Phillips Brooks expressed a high ideal in these words: "We reduce life to the pettiness of our daily living. We should exalt our living to the grandeur of life."

The people of the Middle Ages believed that certain words possessed magical powers.

Britain claims to have the finest gold-beaters in the world.

Use Minard's for Burns.

Where Children Broadcast

Alberta Red Cross Gives Interesting Program Every Week

In a certain broadcasting studio in the capital city of Alberta, there has been a unique broadcast, in which the artists were quite young children. C.J.C.A. The Journal, Edmonton, has for many years kindly donated its station to the Alberta Red Cross for one hour weekly. This period has been popular with the country people, especially with groups of women's service clubs, such as the Women's Institute and the U.F.W.A.

Programs consist of health talks, Red Cross news, dramatic sketches, etc. By special permission the program was turned over for an afternoon to a Junior Red Cross Branch of Grade Six pupils from Norwood school.

These young people gave an interesting feature in the presentation of a regular monthly meeting, with the young president in the chair, and the usual program of business etc.

The entertainment period included a pageant of health, citizenship, and happiness, entitled the Red Cross Junior. This little play was composed for the occasion of the presentation to Canada of a beautiful banner from the British Juniors to Canadian Juniors during a visit to England of Miss Jean Browne, the National Director of Junior Red Cross in Canada. The clear young voices of the Juniors rang over the ether with splendid power, and the unusual broadcast of these twenty young Albertans was listened to with much interest by the many friends of the air.

Where Fate Steps In

People Who Come Through Serious Danger Caught By Simple Accidents

Not long ago William F. Scott, survivor of more than 200 parachute jumps and said to be the champion of the navy at this form of sport, received a fractured skull and other serious injuries near Washington. In a parachute jump? Not at all. In an ordinary automobile accident. Thus once more we see the scurry tricks that Fate reserves for men who tempt her too much. Oscar Palmquist, of Bridgeport, Conn., who found himself in the Atlantic Ocean after the Titanic went down, and who swam about for hours before he was picked up by a rescue ship, drowned a few years ago in a pond six feet deep. Edward Whymper, first man to climb the Matterhorn, and conqueror of peaks all over the world, broke his collar bone when he slipped and fell while mounting the steps of a lecture platform. And Wallingford, we seem to recall, after swindling the world out of dollars, finally went to jail because he forgot to deposit funds to cover a \$100 check.

That is the trouble with Fate; she doesn't come out into the open and fight fair with the weapons that have been chosen. She sneaks up and delivers a foul blow from behind. No doubt that is why she is so terrible.

Apples Bring High Price

Cold storage of McIntosh Red apples promises to make this variety a popular winter apple. British Columbia "Mac's" are bringing the highest prices of any apples on the New York markets at present.

Campers Carry Minard's.

A Valuable Table

Isaac Feather, of Emmaus, Pennsylvania, owns a library table built of 3,000 blocks of wood. The inlaying includes mahogany, walnut, red cedar, oak, poplar, and white pine wood which has been seasoned for more than 100 years. The designs include stars, diamonds, circles and semicircles. Feather, a bricklayer, worked on the table in his spare time for a year.

Japan now has 37,000,000 postal savings depositors.

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude herbs. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Little Helps For This Week

"Giving thanks always for all things."—Ephesians 5, 20.

Whatso' it be, howso' it be, Amen! Blessed it is believing not to see: Now cannot all that is; and we shall then—

Whatso' it be! Whatso' it be!

God's will is best for man, whose will is free: God's will is better to us, yes, than ten

Desires, whereof He holds and weighs where and when—

Christina G. Rossetti.

Thou alone knowest what is good for me; Thou alone art Lord of all; do therefore what seemeth to Thee best. Give to me or take from me; conform my will to Thine; and grant that with humble and perfect submission and in holy reverence I may be disposed to receive the orders of Thy eternal providence, and may equally adore every dispensation which shall come to me from Thy Hand.—Pascal.

Nurse Gains 7 lbs. In 2 Weeks With Yeast and Iron

"I am a nurse at the hospital," writes Miss Martha Burns, "and I want to let you know that I am glad to recommend your Ironized Yeast."

"It gave me a good appetite. I got strong and gained 7 pounds in 2 weeks. I could write all day about how much good Ironized Yeast did me. You would be surprised at the strength I gained in 8 or 4 days."

People everywhere are amazed at the wonderful benefits of Ironized Yeast. Many write they were doubtful when they started. But after taking it regularly for only 3 or 4 weeks they gained 5 to 15 pounds. Ugly hollows filled out. Skinny limbs become gracefully rounded. Bleached skin gets clear and beautiful.

Only when Yeast is Ironized is it more effective—for Iron is needed to bring out the weight-building and strengthening values of Yeast. Pleasant tablets in a handy bottle. Never cause gas or bloating. Safe—no harmful drug.

Go to any drugstore today and get a full size treatment of Ironized Yeast. If after this generous trial you are not delighted, your money back instantly from manufacturer.

Sheep Industry Growing

Although the sheep industry of the East Kootenay is still in its infancy, it is growing yearly in volume and prospects are for further expansion this year. The dry atmosphere, wide free ranges and the entire absence of disease are said to be special recommendations to the farmers to run small bands of sheep.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Extirpator.

Prize For Wheat

The Saskatchewan Board of Trade is offering a prize of \$350 to the farmer in the district who produces the best wheat to be exhibited, at the next winter fair.

Picture of Health Now

"In May and June I was badly rundown and had faint spells until it was a drag to do my work. In July and August I didn't seem to pick up so I decided to try Lydia E. Pinkham's Vegetable Compound because I saw it advertised. I took two bottles and now I am the picture of health. I feel fine, do all my work and milk two cows. If any woman writes, I will certainly answer her letter."—Mrs. George R. Gillespie, Punichy, Saskatchewan.

(482) The bull sale at Kamloops this year is scheduled for March 19 and 20. The show is becoming an important event in western livestock records. A big list of Alberta entries has been received.

The Maritime Livestock Marketing Board have extended their purchasing plan so that now farmers' clubs and associations may purchase feeds at a considerably lower price than formerly. Several carloads of feed have already been ordered.

The directors of the Canadian Pacific Railway have decided to apply to Parliament for an amendment to the company's charter permitting it to change the par value of shares of its ordinary stock from \$100 to \$25 per share with the exchange of one share of the old stock for four shares of the new. This action has been dictated by a desire to place the company's shares within the reach of investors of moderate means and thus increase the number of its shareholders, particularly in Canada.

Miss Doris Parkes, of Vancouver, becomes "Her Majesty" of the 1931 Banff annual winter sports carnival, following her election as Queen at the recently concluded gathering at the famous mountain resort. She won against rivals from Calgary and Australia and was crowned amid colorful pageantry in the closing hours of the carnival.

Main Street

Mr. W. H. King is assisting seedling operations at his son's farm at Fabian.

Irma Ladies Aid will meet with Mrs. E. H. Simmons next Thursday afternoon.

Commencing May 7th Irma merchants will commence holding the usual Wednesday afternoon holidays during May, June, July and August.

Mr. L. B. King returned Tuesday after spending a few days with his brother Norman who is in Royal Alexander hospital at Edmonton.

Mr. Glenn Pettigrew of Bright, Ontario, arrived Saturday night to spend the summer with his sister Mrs. T. Rome.

Mr. and Mrs. S. Johnson and Mrs. Johnson's parents Mr. and Mrs. Stouffer of Jarow motored to Veteran for the week end and had considerable trouble returning on account of the wet roads.

Have you some piece of machinery, a set of harness, a buggy, or some other farm implement, for which you have no further use; but which might be of value to someone; or do you wish to trade or buy one of the above articles? Use classified ads, they usually get results and are an inexpensive way of buying or selling used articles.

YOUR PRINTING NEEDS

The News printing office is now in a better position than ever to attend to your printing requirements. A good quality of stock used on all jobs, and the printing is as good as you can get anywhere. We meet city prices, and in many cases are considerably lower, stock and workmanship considered. May we fill your next order?

Here and There

(420)

The new north wing of the Empress Hotel, Victoria, western outpost of the Canadian Pacific Railway chain of hotels across Canada, was opened recently at a function presided over by Hon. S. F. Timine, Premier of British Columbia, and attended by over 1,000 visitors including civic officials. It represents more than 200 additional rooms and a number of beautifully decorated suites including vice-regal, Jacobean, Italian, Spanish and Flower, and was built at a cost of approximately \$3,000,000.

Progress on the Princess Joan and Princess Elizabeth, Victoria-Vancouver night service boats of the Canadian Pacific Railway, has been so rapid that Captain C. D. Neroutson, manager of the B. C. Steamship service, has announced that the trial trip of the first vessel to be ready will be March 25. Each ship has five decks and berthing capacity for 431 persons.

In the great Chinese province of Manchuria, equal in area to Germany, Marshal Liang Chang, 29-year-old war lord, is experimenting with education on a colossal scale to bring his war-ridden people to peace and progress, is the statement of John Neilson, former publisher of the Vancouver World, who recently landed from the Empress of Russia at Vancouver on his return from the Orient.

Great industrial development throughout western Canada which in the last two decades has brought the annual gross value of manufactured articles produced in its western provinces to \$500,000,000 was described recently by John F. Sweeting, industrial commissioner of the Canadian Pacific Railway, in an address to officers of the company at Winnipeg. "Those of us who have lived through and watched western Canada developments during the last 20 years are assured to the future of that part of the Dominion," he said.

"Railway conditions as they exist in Canada to-day are readily comprehensible and we are in the fortunate position of being able to assure our shareholders that the decreases represent the result of an extraordinary combination of conditions and that the railways have not failed in efficiency or otherwise," stated E. W. Beatty, chairman and president of the Canadian Pacific Railway, in an address recently at the Royal York Hotel, at the annual meeting of the Commercial Travellers' Association of Canada. Mr. Beatty added that the situation in 1929 was exceptional and not likely to be repeated in subsequent years.

The North German Lloyd Company of Montreal is arranging for a trip of German farmers to Canada next summer with a view to investigating Canadian conditions and agricultural opportunities. The trip will commence with a visit to the Annapolis Valley, stopping at Kentville to view the Experimental Farm and the orchard country of Nova Scotia.

The Department of Lands and Forests reports that 1,076 moose and 1,235 deer were killed in Nova Scotia during the hunting season of 1929.

New Brunswick's potato crop for 1929 will have an official valuation of at least \$3,000,000 placed upon it according to intimations of the Provincial Department of Agriculture officials, when the final report of agricultural conditions for the crop season was issued recently.

When Hills Feel Steeper and Steeper Look at Your Valves

When your motor gasps on the hill you used to take at one swift rush, it's time to look at your Valves.

The red hot hammering of the millions of explosions has battered them, pitted them, warped them, or perhaps even burned them. Power is leaking past those valves. Power that never reaches your drive shaft. No wonder the hills feel Steeper and Steeper!

COME IN AND ASK ABOUT OUR
VALVE AND SEAT INSPECTION!
